

Climate Scientist

I develop statistical methods and physical models to understand past climate change and climate dynamics.

Education

2015-21 Ph.D. in Earth and Planetary Sciences, Harvard University (Advisor: Peter Huybers)
2013-15 M.S. in Meteorology, Nanjing University, China
2009-13 B.S. in Applied Meteorology and Minor in Finance, Nanjing University, China

Appointments

2023- Lecturer (Assistant Professor equivalent), School of Ocean and Earth Science, University of Southampton
2021-23 Postdoctoral Scholar, Physical Oceanography Department, WHOI

Awards and Honours

2021 Weston Howland Jr. Postdoctoral Fellowship, WHOI
2021 High Meadows Environmental Institute Fellowship, Princeton (Declined)
2021 Outstanding Student Oral Presentation, 101st AMS
2020 Harvard Horizons Fellowship
2019 Harvard GSAS professional development award
2015-16 William Benjamin and Jill Kowal Graduate Aid Fund in Environmental Studies

Teaching

Course Head Computational Data Analysis for Geophysicists and Ocean Scientists (Fall, 2023)

Teaching Assistant Dynamical Insights from Data (Fall, 2022), Paleoclimate as prologue (Spring, 2021; Fall, 2016), Climate change debate (Spring, 2019), General Circulation of the Atmosphere (Fall, 2014)

Professional Service

Postdoc Mentor Se-yong Song (2023-)

Ph.D. Mentor Glenn Liu (2022-) | Yifei Fan (2021-) | Chenggong Wang (2021-2022) | Charlotte Henke (2021) | Sarah King (2020-2021) | David Ma (Summer, 2020) | Alexandria Berry (2018-19)

Reviewer PNAS | Nat. Commun. | Sci. Adv. | J. Clim. | GRL | JGR Atmosphere | Earth's Future | Clim. Dyn. | JTECH | Earth Space Sci. | Remote Sensing | Sustainability | SERRA | NOAA Small Business Innovation Research Funding

Presentation Judge AGU (2022) | Ocean Science Meeting (2022) | National Collegiate Research Conference (2022)

Organizer AGU co-convenor (2023; GC084) | Harvard ClimaTea seminar (2017)

Outreach Teach Climate Science at Perry School (public middle school in south Boston; Winter, 2019-20)

Sea-Going Experience

2021 One Ocean Expedition, Statsraad Lehmkuhl: Miami-New York, Dec. 10-18

Conferences and Presentations

Invited Talks

- [5] Combining the physics of air-sea interaction and data-driven methods to improve historical estimates of earth surface temperatures (Ocean University of China, 2023 | Duke Kunshan, 2023 | Hanyang University, 2023 | MIT, 2023 | UC Colorado, 2023 | NCAR, 2023 | U Chicago, 2023 | WHOI GFD summer school, 2022 | U Miami, 2022).
- [4] Are we already at a 1.5°C warming threshold? (U Southampton, 2022).
- [3] Combining statistical, physical, and historical methods to improve historical sea surface temperature data (Zhejiang University, 2022 | Ocean Dynamics Seminar, 2022 | Penn State U, 2022 | UC Irvine, 2021 | U Washington, 2021 | WHOI, 2021 | Nanjing University, 2021 | U.K. National Oceanography Centre, 2021 | Harvard Horizons, 2021 | Princeton, 2020 | Yale, 2020).
- [2] Applying statistical methods to climate reconstructions – Late 19th-century navigational errors and their influence on sea surface temperatures (Joint Statistical Meeting, 2020).
- [1] Correcting datasets leads to more homogeneous early-twentieth-century sea surface warming (Fudan University, 2019 | Nanjing University, 2019).

Recent Conference Talks

- [3] Discrepancies between Coastal Air and Sea-Surface Temperature and Implications for Global Mean Temperature Estimates (AMS, 2023 | AGU, 2022 | 47 NOAA Climate Diagnostic and Prediction Workshop, 2022).
- [2] Coastal air-sea coupling represented using a simple model implications for historical warming. (OSM, 2022).
- [1] Why the variance of continental summer temperature increases in some models but not others? (AGU, 2021).
